## HIGH POINT IN COAL STRIKE REACHED

Operators in Western Pennsylvania Predict Turn for Better This Week.

### TWO FRICK MINES CLOSE

Increase of Car Loadings Is Reported From West Virginia.

PITTSBURGH, April 22.—Review of the third week of the coal strike in the Western Pennsylvania district brought conflicting estimates on the number of men employed and the tonnage production in the Fayette county field where the strike has centered. It was agreed that union organizers had made progress, although the operators declared high tide has been reached and more men would return next week to the mines that would leave them.

The extent to which the strike has effected the Fayette field was estimated for the week as a decrease of 5,000 tons in coal production brought about by the addition of 600 miners to the union ranks. Union leaders, while presenting no figures, said the figures in tonnage and men were much larger. They pointed to the number of mines closed in support of their contention.

At the district office of the United

Mine Workers here it was stated that Lehighing mines 1 and 3 of the H. C. Frick Coke Company were closed to-day, and only a few men were at work in No. 2.

Union organizers continue their campaign at strategic points in the field. Van Bitter, representing the International officers, addressed a large meeting at Masonown last night, and it was announced that important additions had been made to the union.

ALTOONA, April 22.—Production of coal in the central Pennsylvania field this week averaged about 800 cars a day, according to a statistician for the Central Pennsylvania Coal Producers Association. This, he continued, is equal to the production during the first week of the strike, before union organizers began their activities in non-union sections.

Operators declared there are 1,600 cars of coal standing on sidings and about the mines for which no orders have as yet been received.

President Brophy said to-day that he was satisfied with the progress of the strike, and that within a short time he expected every mine now working in central Pennsylvania to be closed down.

CHARLESTON, W. Va., April 22.—An increase of 3,400 tons as compared with Thursday this week was recorded in coal loadings yesterday, according to a report issued to-day by the West Virginia Coal Association. The greatest production was in the Pocahontas field, with New River second. Losses were noted in Mingo, Winding Gulf and Kanawha.

HAZLETON, April 22.—Bank statements presented by the Anthracite Operators' Committee at the New York conference late yesterday to show there is prosperity in the hard coal regions are valueless in arriving at any conclusion bearing on the miners' case, declared Thomas Kennedy, chairman of the miners' scale committee, to-day.

Officers of the United Mine Workers during the wage conference in New York will make every effort to attend as many meetings as possible in the larger cities to "fully acquaint the public as to the facts in the situation" regarding the demands of the men for higher wages, Chairman Kennedy announced. Such meetings have been held in New York and Brooklyn.

### COAL EXPORTS SHOW INCREASE FOR MARCH

Report Covers Both Anthracite and Bituminous.

WASHINGTON, April 22.—Coal exports during March increased as compared with February according to reports issued to-day by the Commerce Department. Bituminous exports aggregated 1,187,000 tons compared with 1,139,000 tons in February. Anthracite exports totaled 255,000 tons compared with 275,000 tons the month before.

Exports of refined petroleum during the month aggregated 231,000,000 gallons valued at \$29,600,000 compared with 195,000,000 gallons worth \$24,000,000 in March, 1921. Exports of crude petroleum for March aggregated 34,000,000 gallons valued at \$1,600,000 as against 31,000,000 gallons worth \$2,000,000 in March a year ago.

Cotton exports increased slightly during March as compared with the same month last year, aggregating 461,000 bales valued at \$42,000,000 compared with 375,000 bales worth \$27,000,000 a year ago.

### HUB TOO HOT FOR COURT.

WASHINGTON, April 22.—A House bill providing for summer sessions of the Massachusetts Federal District Court at New Bedford was passed to-day by the Senate. Court officials contended that because of the heat and congestion, it was impossible to hold summer sessions at Boston.

## PENNSYLVANIA WINS LABOR BOARD CASE

Federal Judge Upholds Injunction Against Censure of Road for Violating Decree.

CHICAGO, April 22.—Federal Judge Page to-day upheld the Pennsylvania Railroad in its suit to test the power of the United States Railroad Labor Board by refusing to dismiss the temporary injunction recently granted by Judge Landis restraining the board from censuring the road for violation of the board's decree.

The shop crafts and charged that the employees' representatives who conferred with the road over proposed wage reductions were selected by the road itself and not by the employees. They said the conference, therefore, were illegal and they were upheld by the board.

The Labor Board has never claimed power to enforce its decrees, the enforcement being left under the transportation act to the moral responsibility placed on carriers and employees through the decisions of an impartial body. The only power it claimed was to ensure publicly anybody violating its decrees, and it recently did this in connection with a small Eastern road. The Pennsylvania maintained, however, that the board could not even enforce its decrees, and it recently did this in connection with a small Eastern road.

To-day's decision came as a distinct shock to board members, they said, as they had confidently expected that Judge Page would dismiss the temporary

injunction and throw the case out of court. Judge R. M. Barton, chairman of the board, said he would confer with the Department of Justice before deciding whether to move for modification of the restraining order.

"This case is the most important as to the matter involved of any raised since the passage of the transportation act and possibly it is the most important in the history of labor disputes and industrial legislation in this country," Judge Barton said.

The court's decision, after reviewing the history of the transportation act, Federal control and the Adamson law, upholds the constitutionality of the transportation act insofar as it attempts to impose compulsory arbitration, but denied that the act gives the board any power to initiate any action on its own motion and without submission by both sides to the controversy.

Coming at this time, when the shop crafts have just started taking a strike vote on another question, labor leaders predicted to-day that the decision might complicate the already troubled railroad labor situation.

### RAILWAY WORKERS VOTE FOR A STRIKE BALLOT

Shop Crafts Men Oppose Farming Out Work.

CHICAGO, April 22.—Threat of another railway strike was indicated here last night when the Railway Employees' Department of the American Federation of Labor (shop crafts employees) voted at its biennial convention to send out strike ballots to its 600,000 members. The question involved is the farming out of repair work by the railroads.

B. M. Jewell, president of the Railway Employees' Department, said: "If there is a strike, and I feel sure our men will vote solidly for it, it will

be in protest of the action of railways in ignoring decisions of the United States Railroad Labor Board."

Complaints of the railway employees in connection with the farming out system are now pending before the Railroad Labor Board, decision is expected next month after the conclusion of the present wage hearings.

### ROUGH GUY STILL HIDES PARTLY UNDER CANVAS

Ready for Public Inspection About End of Week.

People minded to make a special pilgrimage to City Hall Park to-day to see the Rough Guy, now firmly in place as the dominant figure of the statutory group set up at the fountain to symbolize "Civic Virtue," are likely to be disappointed. The Rough Guy is not quite ready to receive visitors, friendly or otherwise.

Very little of his robust figure can be seen, except such bountiful curves as may be viewed from the City Hall steps and as visible under the overhang of capacious tarpaulin. His curly head is concealed, along with shoulders and torso, by dingy canvas, and even the magnificent legs, somewhat suggesting the legs of M. Georges Carpentier, are more or less hidden by protective plaster of paris.

To-morrow the plaster will be removed and a beginning will be made toward remodeling the park itself to make it a more fitting setting for MacMonie's statue. Probably toward the end of the week the work will really be ready for public inspection and for the public verdict requested by the Mayor.

## COLUMBIA AWARDS MANY FELLOWSHIPS

Selections Made From Among 290 Applicants in All Schools of University.

The Columbia University Council for 1921-1922 announced yesterday that it had awarded fellowships and scholarships aggregating many thousands of dollars. The selections were made out of a total of 290 applicants, divided among almost all the field of university effort.

Some of the principal awards were: George William Curtis fellowship, for two years, carrying a net income of an endowment of \$10,000, in the science of government with special application to Federal conditions or to conditions in the State of New York; awarded to Livingston Jenks, '26, Berkeley, Cal.

Henry Brister fellowship in Greek and Latin, value \$650, to Florence Horton Robinson, Berkeley, Cal.

Emmons Geological fellowship, John Tafford Brown, Rolla, Mo.

Granville W. Garth fellowship to Lucy Burton Winsor of Providence, R. I.

Three Gilder fellowships to Wendell Farrell Johnson of Toledo, Stuart Arthur Rice of New York and Malcolm Donald Willey of Putnam, Conn.

Mosenthal fellowship in music to Evelyn Benham of New Haven.

Alexander Moncrier Prouditt fellowship in letters to Harold Chester Sproul of Passaic.

Jacob H. Schiff fellowship in political science to Nicholas Stavros Kalichas of New York.

## STEWART & Co. Present an Attractive Array of

### Stepping into Prominence

HAND MADE

### FRENCH COTTON FROCKS

Among the distinguished company arriving on the S. S. La Touraine were these exquisite models now on display in our

### Louis XVI Salon

WITH an air of Summery smartness these winsome new French frocks greet the season of play and sunshine, conferring on the smart woman an air of Parisian chic and refreshing newness. The handiwork of the Parisian as exemplified in these dainty affairs is truly inimitable and indigenous to Paris alone. These lightsome fabrics: Crepe Roumaya, French Voile and Batiste are combined with clever touches of hand-drawn work and hand embroidery in effecting these rare creations.

Specially Offered Tomorrow

15.00 to 25.00

Radiating a refreshing Parisian charm, these deftly modelled frocks of Crepe Roumaya, French Voile and other dainty French Cotton fabrics will readily win the hearts of fashionable American women. Silk embroidery and hand-drawn work have been effectively applied to enhance their attractiveness.

## NEWER SPRING FASHIONS

### From Paris and America

An almost unlimited ensemble from Paris—that limitless source of originality in feminine attire—together with a distinguished gathering of replicas, so faithful in reproduction as to deceive the eye of the most discerning and critical. Then again, there are many adaptations to suit the varied tastes of our fashionable women. American creators, too, lend a brilliant touch to this stellar presentation.

Prices Are Extremely Moderate, to say the least.

## NEWER CAPES FOR SPRING

100.00

69.50

A sumptuous Jenny Cape, reproduced with marked fidelity in Silk Crepe Nippon. Steel beading and touches of beaded fringe unite in an all-over design to grace the softly flowing lines of this unquestionably smart Springtime cape. Just the model for the woman of higher dress ideals who seeks distinction in her attire.

Adapted from a new Parisian model, this beautiful cape achieves smartness by means of its aristocratic double upstanding collar of rich Ermine fur. Finest quality Silk Canton Crepe, which has been chosen for its fashioning, lends much to the unusual charm of this model as does the vivid silk crepe lining in alternating colored panels.

## DRESSES IN NEWER MODES

69.50

55.00

With Springtime at its height, the dress springs into the forefront of feminine attire and this gorgeous model of Silk Crepe Nippon emphasizes the vogue of panels, and the all-over sparkling, crystal bead embellishment radiates a most compelling smartness. Handmade rosettes of self material, also beaded, trim the waistline and bottom of skirt.

On the many occasions of Spring you will gladly don this enchanting new dress, fashioned along lines as unique as they are smart. Steel bead ornamentation in a most original design bedecks the graceful lines of this Silk Canton Crepe dress. A loose, narrow panel extending from the abbreviated sleeves is tacked at waistline on either side.

## SUPERBLY TAILORED SUITS

110.00

79.50

Patou is the inspiration for this exactly tailored three-piece costume suit of fine Twill Cord, with its decidedly smart and becoming lines. The accepted funnel sleeves are slashed at bottom and the dress reveals attractive sleeves of Silk Canton Crepe in the Rouge shade which is in perfect harmony with the lining of the jacket.

The vogue of the Caped costume suit is ever increasing in fashionable circles, and particularly appealing are these exquisite models of Twill Cord—each varied in line and treatment, but all alike in the finesse of tailoring. Silk Canton Crepe in brilliant shades lines the capes and combines with Twill Cord in fashioning the dress.
